

CAPSULE HOUSE MODELS

ABOUT US

SET DESIGN, PRODUCTION, LOGISTICS, INSTALLATION AND AFTER-SALES SERVICE IN ONE.

MIR MAISONS is a forward-thinking company specializing in innovative, sustainable, and prefabricated building solutions. With a strong commitment to quality, innovation, and modern living, the company focuses on three core sectors: residential spaces, commercial spaces, and hospitality solutions.

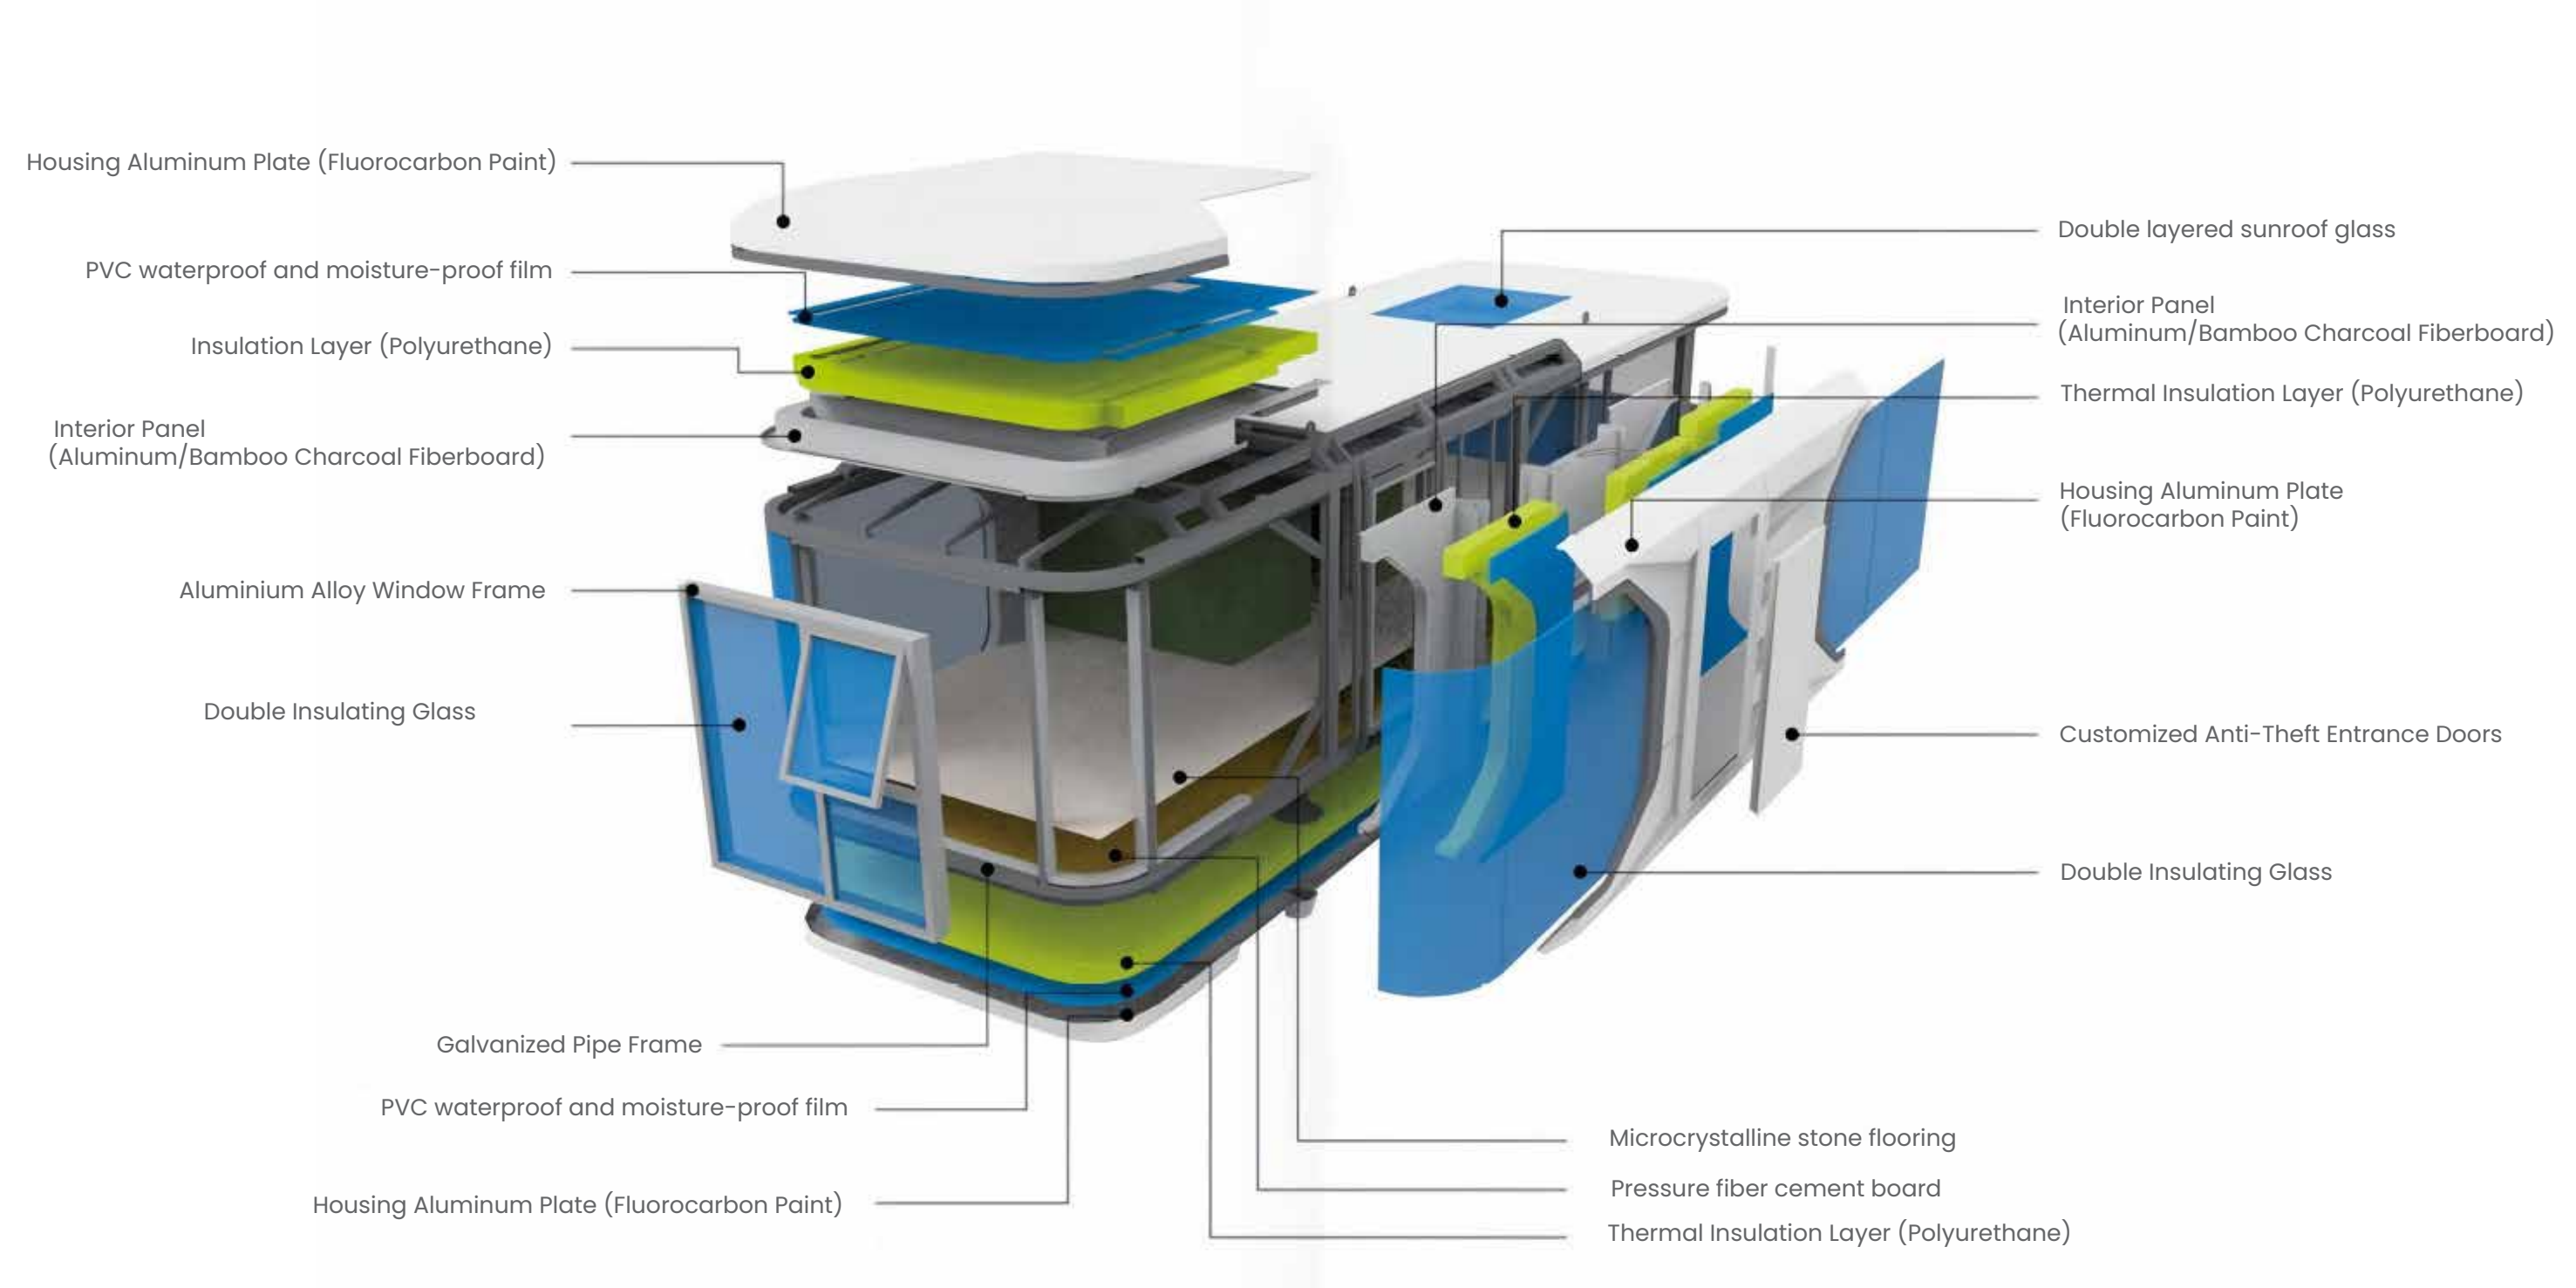

MIR MAISONS provides comprehensive, end-to-end services throughout the entire project lifecycle—from concept development and design to manufacturing, delivery, installation, and after-sales support. Our portfolio includes a diverse range of premium modular structures, including space capsule homes, apple cabins, luxury prefabricated villas, floating houseboats, A-frame cabins, tiny homes, glamping accommodations, and customized modular hotel developments.

Guided by the philosophy of "Modern Innovation Connected with Nature," MIR MAISONS seamlessly integrates advanced construction technology, intelligent living solutions, energy-efficient systems, and environmentally responsible design to create spaces that are functional, elegant, and sustainable. Every project is thoughtfully designed to enhance comfort, maximize efficiency, and harmonize with its surrounding environment.

Whether for residential communities, tourism developments, eco-resorts, commercial projects, or customized modular solutions, MIR MAISONS delivers world-class prefabricated buildings that combine contemporary architecture, exceptional craftsmanship, and lasting value for clients around the globe.

PRODUCT ADVANTAGES & MATERIAL BREAKDOWN

APPLICABLE SCENARIOS & OPERATIONAL MODES

Camp mode

Assist in the development of new models such as farms, ranches, and ecological parks.

Integrated mode

Combining homestays with rural activities to create a one-stop project of 'eating, drinking, playing, and learning'

Hotel mode

Explore the travel ecosystem and create unique tourist accommodation destinations.

Travel mode

Build a tourism base through natural resources such as forest health, hot spring vacations, and beach views.

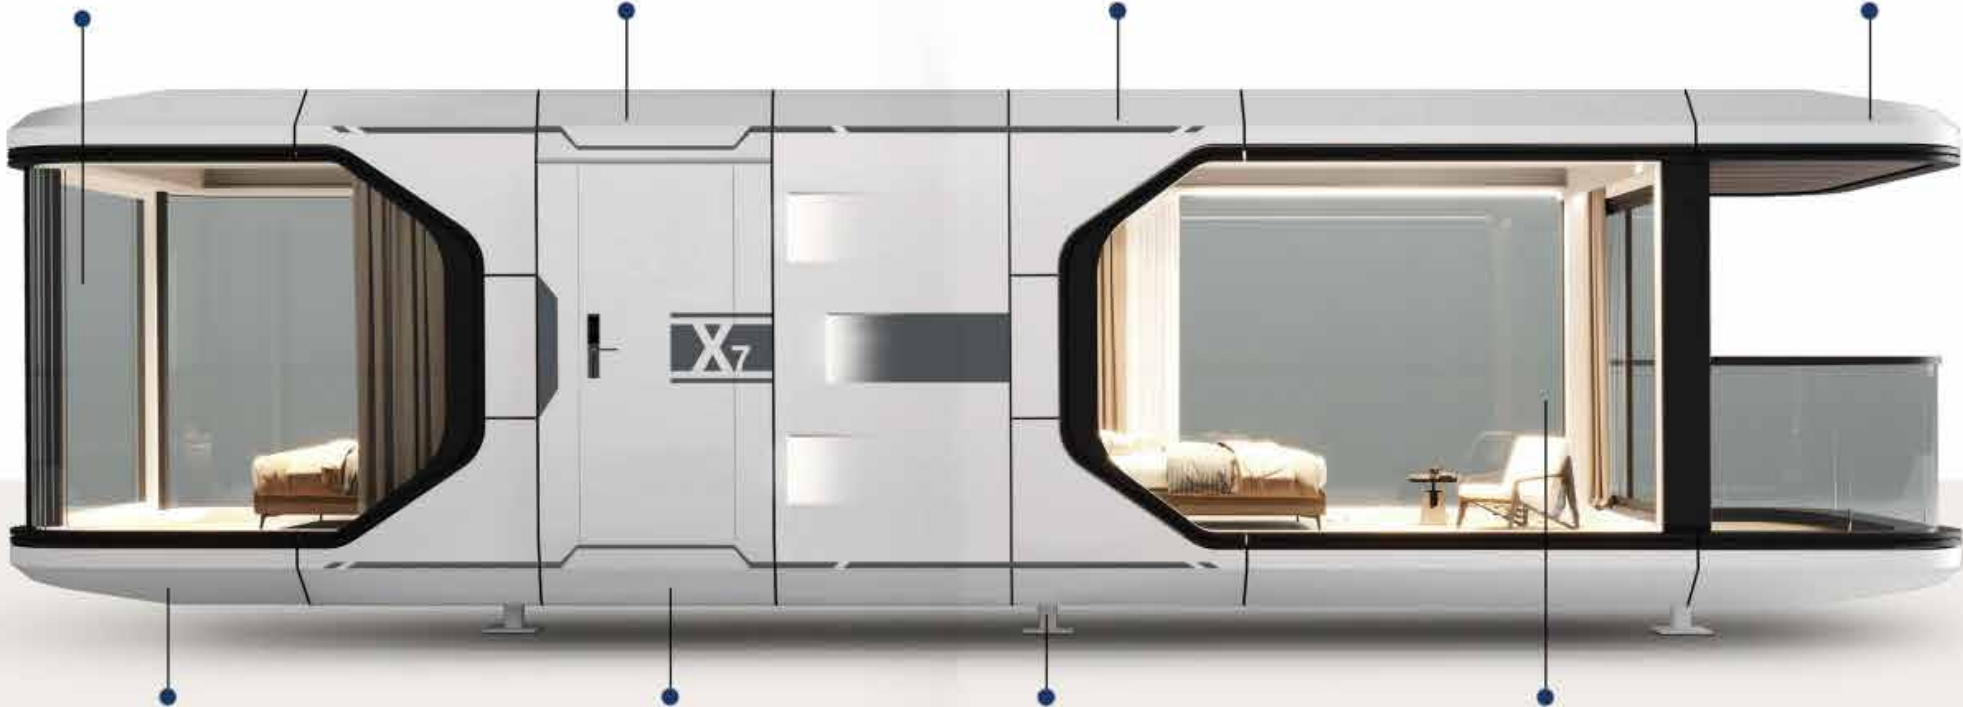

TECHNICAL & PRODUCT ANALYSIS

Modern minimalist style, equipped with smart appliances throughout the house; one bedroom, one living room, one kitchen, and one bathroom layout.

Body made of fluorocarbon process aluminum alloy: moisture-proof, anti-corrosion, rust-resistant, earthquake-resistant, and windproof.

Sturdy structure: Bottom screws fixed for level 9 seismic resistance; entire warehouse withstands level 12 typhoons.

Eco-friendly: Complete and dismantled without destroying any local flora or plants.

The main frame is independently developed by travelers and adopts a hot-dip galvanized steel structure, which is sturdy and durable for more than 50 years

Ecological and environmentally friendly, complete and dismantled without destroying any plants or trees

Equipped with foot support, not limited by terrain, deep into the hinterland of the scenic area

L-type French windows use double-layer hollow low-e glass for premium heat insulation and sound isolation.

TRANSPORTATION, LIFTING & INSTALLATION GUIDELINES

Transportation phase

Transported via 13.5m or 17.5m semi-trailers. Transport width is 3m, height is under 4.2m, completely legal for national highways.

Lifting stage

Lifting weight ranges between 6 and 10 tons. It is recommended to hire a crane of 25 tons or larger for safe offloading.

Installation phase

Under technician guidance, complete on-site engineering of water supply, electricity, sewage, and load foundation.

E - SERIES

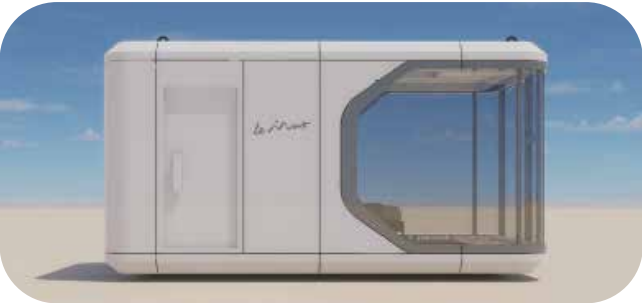

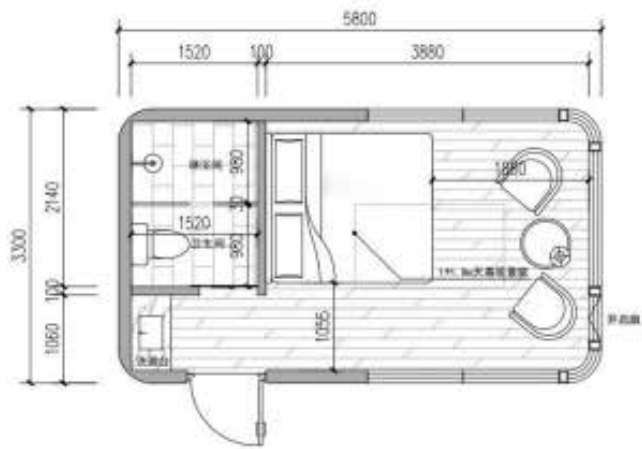

Product Type	Building Area	Dimensions (L × W × H)
